YALE EDUCATOR HITS ONE-MAN COURT RULE

By WILLIAM K. HUTCHINSON
International News Service Staff
Correspondent

Washington, March 31.—President Roosevelt's judicial plan was condemned today by Edwin H. Redford, professor of constitutional law at Yale. He said it would make the Supreme Court "subservient to the executive" and subject to "unlimited damage by capricious majorities."

Redford said the Supreme Court is the only body for stability in the country. Without an independent judiciary, he warned, individual rights could be wiped out by majority action.

Redford said he was followed by Thomas, associate of similar law. A cited letter, which is opposed to the President's plan, is the first of the kind.

Motorbus 'Gateway to North Shore' Terminal to Be Opened On Monday

STRUCTURE IS MODERNISTIC

"Gateway to the North Shore," the Haymarket square bus terminal, will be officially opened on Monday, April 5, the Eastern Massachusetts Railroad Authority announced today.

Located on the easterly side of the Haymarket square traffic circle, the terminal is not only modern in its design to handle bus traffic, but it is modernistic in design as well.

The building is three stories and occupies an area of approximately 700 square feet in area.

AIR-CONDITIONED
It is one of the first completely air-conditioned bus terminals in the country. It is fireproof, being constructed of steel, concrete and tile.

The exterior is cream faced granite, with black and white tile. The building is three stories and occupies an area of approximately 700 square feet in area.

Austrian Best
of Men Skaters

KARL SCHAFER, famous Austrian skater, will conduct several attractive moving picture shows following his appearance in "Cracked Ice" under the supervision of the Boston Skating Club at the Garden and today and Saturday.

"I am much interested in the success of Sonja Henie in her movies," Schafer told George V. He was general manager of the Garden. "Sonja is as wonderful in the movies as she is performing before a large audience at an ice rink."

"I have seen Sonja's success in the movies is partly responsible for the numerous offers which I have received to go to Hollywood. I am, I think, as my appearance in "Cracked Ice" at the Garden. I shall do my best as I know the Boston Skating Club has a reputation for putting on brilliant ice carnivals."

CHILDREN'S HOSPITAL TO BENEFIT

THE BOSTON Skating Club is presenting "Cracked Ice" at the Garden, the home of the Children's Hospital. It is not known of any more worthy charity.

It is unnecessary to dwell at length in regard to the wonderful work that has been accomplished in this community by the Children's Hospital.

I know of scores of cases where youngsters, with the loss of teeth, lips and heartbroken parents in the depths of despair, have been saved by the splendid staff of doctors and nurses and excellent equipment of the Children's Hospital and its allied organizations.

"TACK" HARDWICK AT ROCKINGHAM

HUNTINGTON R. "TACK" HARDWICK, Harvard football great in the days of Percy Haughton, informs me he will have charge of the advertising at Rockingham Park again this year.

"I believe Rockingham Park will have a successful racing season," said Hardwick. "Rockingham was the pioneer race track in New England for legalized pari-mutuel betting, and I believe it holds a warm spot in the heart of every race goer."

THE BOSTON Skating Club is presenting "Cracked Ice" at the Garden, the home of the Children's Hospital. It is not known of any more worthy charity.

RANDOM SHOTS AT TARGET

THE DASHING mermaids who will compete in the Water Follies at the Arena on April 8, 9, 10 and 11 are working out at local pools. Frances Helen Farrell, the star of the carnival, was in Boston several days before the Arena season opens and was completing her training at one of the local pools. This show holds its same position among Water Follies that a Stanley Cup class does in hockey. A special tank, 70 feet long will be shipped to the Arena.

The first two cases are not relevant to the present study. The third case is the one that we are interested in. The only way to get a non-trivial solution is to assume that the only non-zero component of the vector $\mathbf{v}$ is the one corresponding to the $\mathbf{v}_1$ component. This is the case that we are interested in.

Proper Investigation

TWO statements were made simultaneously in the House of Representatives on March 22 that reflect the growing consciousness in this country of a grave double national danger THAT DOES NOT THREATEN FROM WITHOUT.

Representative Schulte, of Indiana, of the House Rules Committee, asked his committee to approve a resolution for a House investigation of propaganda against the American form of government.

"THERE IS NO QUESTION," said Mr. Schulte, "THAT COMMUNISM IS CREEPING INTO LABOR ORGANIZATIONS AND FOMENTING UNREST."

Almost at the same time that Representative Schulte was making his statement, Representative Dies, of Texas, introduced a resolution in the House to investigate sit-down strikes, their causes and effects.

Mr. Dies declared that the "SPREAD OF LAWLESSNESS WILL WRECK THE COUNTRY."

THE double danger of Communistic activity and the lawless sit-in strikes arises from the same cause—IMPORTED TECHNIQUE in solving our domestic problems.

The sit-down strike was, in 1932, the forerunner of the Red uprisings in Milan and Genoa, which were suppressed only by the sternest measures.

The sit-down strike in France was coeval with the rise of the Communist Party as a powerful government bloc.

There isn't a Communist in America who does not back the sit-in strike.

This strategy has deluded many thousands of sound American workers.

An investigation by Congress of both Communism and its relation to sit-in strikes should be made before John L. Lewis declares Congressional investigations unconstitutional.

A Vast Sum For Roads

MASSACHUSETTS cannot allow the spending of \$100,000,000 on new high ways during the next five years, and Senators and Representatives, with excusable curiosity, ask: "Where is the money coming from?"

There is only one correct answer, in view of the fact that the money has been pouring into the State Treasury for many years. The answer is: FROM THE GASOLINE TAX AND AUTOMOBILE REVENUES.

New roads are needed. No one will dispute that. Fifty-one different bills have been before the Legislature show where and how badly they are needed.

But the State will never have them as long as Congress and legislators continue the practice of dipping into gasoline tax revenues and spending the money on enterprises not even remotely related to roads.

Even this year, \$7,500,000 of the tax is to be used to balance the State budget.

The fact that now both Senators and Representatives recognize the need of larger and better highways throughout the State is the best possible argument for keeping the gasoline tax revenue intact and for spending ALL of the money where it always should have been spent—ON THE ROADS.

A Town Truly Modern

THE line to outline Adams effectively is a line of shame and a menace. The town of Weston, recognizing this fact and doing something about it, is wise.

By an almost unanimous vote of the citizens, the town is to be divided into numbered districts, each with more than 40,000 square feet. Only in scattered sections will lots of 30,000 feet be tolerated.

That Weston might be called America's First Twentieth Century Municipality. For in this era of rapid transportation, of fast automobiles, airplanes and amply furnished roads, there is no excuse for local business after the manner of trees growing in a forest.

Eiffel Tower's Doom

By Edwin C. Hill

The French are planning to tear down the Eiffel Tower, built 45 years ago for the Paris World's Fair. When it is torn down, it will be a famous landmark of Paris.

When the twenty years had passed, the tower stood as a monument to the French people and to the French people.

They worked the tower as an advertising sign, for broadcasting stations, for restaurants, for the toll from 190 tourists going up on an average day, for apartments, for a hotel, for a school.

It is the tower, a symbol of the French people, a symbol of the French people, a symbol of the French people.

There will not be any new American loans in the egg baskets of European debt defaulters, because the Johnson Act is not THAT KIND of a chicken.

The Johnson Act is ON GUARD to prevent new loans.

It was enacted because nations which borrowed American money before DID NOT PAY IT BACK.

The American people are determined not to put any more eggs in that ONE-WAY BASKET.

The financing of European militarism got America into one European war, and the Johnson Act is designed to KEEP US OUT OF THE NEXT ONE.
